AMENDMENT UNDER 37 C.F.R. § 1.114(c) Attorney Docket No.: Q116830

Appln. No.: 08/977,846

REMARKS

Claims 1 and 33-92 are all the claims pending in the application. By this Amendment,

Applicant amends claims 1, 58, and 91.

The amended claims clarify that "if the data is the alphanumeric data, the switch provides

the alphanumeric data to the speech synthesizer and, if the data is the audio data, the switch

provides the audio data to the audio amplifier." Among the cited references, at best the

switching in De Bey (WO 99/03112) at p. 9, ll. 10-11 and p. 19, ll. 32-33, cited in the Advisory

Action, is only a switching according to whether the input signal is a digital signal or an analog

signal, and fails to disclose or suggest the switching recited in the claims.

Accordingly, claims 1 and 33-92 are patentable for at least these reasons.

Conclusion

In view of the above, reconsideration and allowance of this application are now believed

to be in order, and such actions are hereby solicited. If any points remain in issue which the

Examiner feels may be best resolved through a personal or telephone interview, the Examiner is

kindly requested to contact the undersigned at the telephone number listed below.
